

The 352 Pound Capacity Platinum Curve Heavy Duty (HD) Stairlift

Why Choose Platinum

Stairlifts are one of the best and most cost effective assistive technologies available to help elderly and disabled people retain more independence and comfort at home. However, for people weighing over 250 lbs with staircases that have turns or quarter landings there was little choice but to move to a bungalow.

Until now that is!

Thanks to the new Platinum Curve HD, larger than average people, with complex staircases, now have the choice and ability to install a quality built, cost effective curved style stairlift to help aid safe mobility and retain more independence at home.

Rated to 352 pounds the Platinum Curved Heavy Duty may just be the answer to your stairlift requirements.

The PLATINUM CURVE HD

Features and Benefits

- 352 lb max weight capacity
- Wider seat with adjustable arm width in 1 inch increments
- Stronger swivel boss
- Hardened acetyl rollers
- Additional legs and support bars placed on the rail for additional stability and strength
- Heavy Duty drive motor

Options available include:

Remote Controls-
Handheld control to call or park your lift

Powered Footrest Raiser -
Allows footrest to be folded away without the need to bend down

Drop Nose Finish -
For close proximity to doors and passageways

180 Degree Internal Bend -
One of the tightest, space saving bends available

Top or Bottom Overrun -
Allows more space and access to your staircase

Full LED Diagnostic System -
Indicates lift functions and service information

Foot Covers -
Improves the finish of the rail on your stairs

Extra Wide Arm Adjustment -
Can be specifically designed to ensure the best fit for the user

Comfort and peace of mind

Your comfort and safety is important to us. That is why the Platinum Heavy Duty has easy to use controls and thanks to our special rail bending process, provides you with a very smooth and comfortable ride quality.

Buy with confidence

The Platinum curve is guaranteed with a 10-year warranty against defects in the drive train and its component parts, and a 5-year warranty against defects in all other stair lift parts and components.

Delivery

To ensure a precision fit your Platinum stairlift will be installed by qualified and trained engineers from our nationwide network of approved retailers and installers.
