Modular Ramp Systems

Modular Ramp System

Designed to address the accessibility needs of the residential and light commercial market, the EZ-ACCESS® Modular Ramp system is an excellent choice when accessibility needs extend beyond the scope of a portable ramp. The efficient design uses less hardware and no pre-assembly is required.

**EZ-ACCESS
Modular Ramps
offer quick and
convenient
installation and
removal.**

Made in the USA.

It's how they're put together that sets them apart.

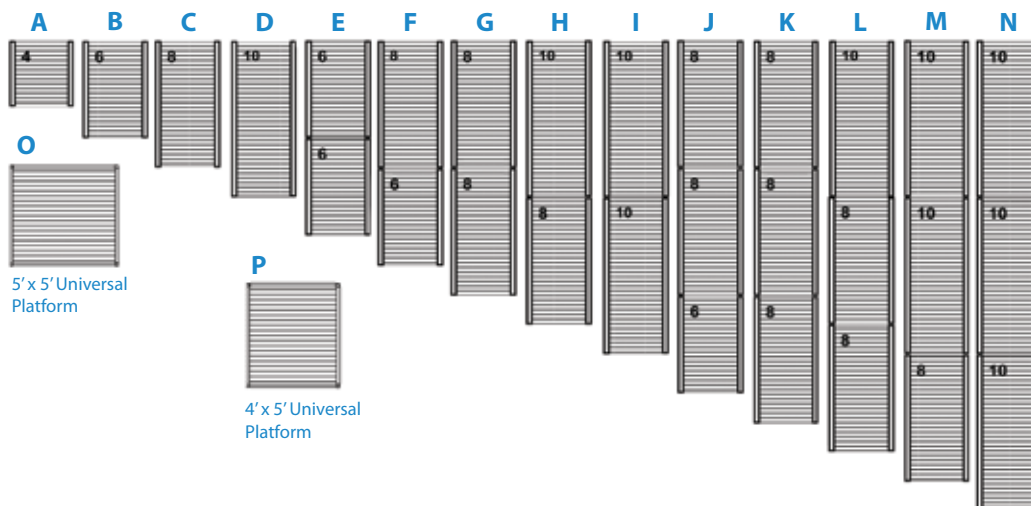

- ✓ A 24-foot system can be installed, including handrails, in less than 30 minutes
- ✓ Universal components and platforms ensure fewer parts
- ✓ Made of durable, lightweight aluminum that does not rust, rot, or decay
- ✓ Ramps, platforms, and handrails require minimum assembly
- ✓ No anchoring into concrete footings or pads is required
- ✓ Architecturally designed for a clean, modern appearance
- ✓ Low maintenance
- ✓ Can be easily expanded, reconfigured, or moved
- ✓ Permanent non-skid surface
- ✓ Sides are finished and flush; no hazardous nuts or bolts protruding into usable ramp area
- ✓ 850 pound weight capacity
- ✓ 36" width (custom widths also available)

Sample Ramp Configurations

Use the following examples to establish your desired ramp configuration (section 1 reflects basic components). To combine runs in order to create a custom ramp, see section 2. Please keep in mind that we can accommodate virtually any ramp need.
